The fourth Galaxy Fold was released to stores earlier today in South Korea, and the device has already garnered its fair share of issues. The most prominent issue is that the device is currently only available in Korea, and it has an estimated

March release window in the U.S. and U.K., meaning that its design and issues have yet to be fully tested. It also isn't available for purchase yet. I've personally tested it, but the device has yet to launch in the U.S. and U.K. It's not the first time that a new phone has issues, but some of the Galaxy Fold's issues might be just that — issues — while others are absolutely avoidable. Here are some of the potential issues you can look out for: Galaxy Fold display problem The screen on the Galaxy Fold is some of the widest you've
